- AUTO FRAGRANCE ON BUTTON ✓
- IN CUPBOARD RGB LIGHT CHANGE ✓
- AUTO ARRANGEMENT OF SOCKS ✓
- AUTO REGROUPING OF SHOES
- SHOE SHINER
- CLOTH QUALITY/HEALTH MODE
- BEST MATCH MAKER OF OUTFIT

➤ HOW WILL IT OPERATE?

All the functions and process will be carried on a single button press. There will be an apparatus in the cupboard which will have all the outfits/shoes/socks and it will perform functions on that. After all these processes, we can have our clothes easily and we don't have to many things like iron or even washing them. It will save a lot of time because it is just more than a outfit management apparatus.
